EXAMINER'S AMENDMENT AND ALLOWANCE

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Robert Sachs (Reg. No. 42,120) on September 4, 2004.

2. The application has been amended for a typographical error:

Amend claim 38 as follows:

38. (Amended) A system for controlling the processing of digital image data, comprising: a digital image capture device having an image processing backplane for forming an image processing chain with a plurality of image processors, the plurality of image processors being software modules stored in memory located within the digital image capture device, the image processors each performing a particular type of image processing on the digital image data; and a parametric control coupled to at least one of the two or more image processors, wherein the parametric control is accessible by a user of the digital capture device for modifying at least one of the two or more image processors.

ALLOWANCE

3. Claims 1-41 are allowed.
4. The following is an examiner's statement of reasons for allowance: The following is an examiner's statement of reasons for allowance: The McCubrey reference is the closest prior art. McCubrey was cited during the prosecution of the parent Patent application and also in the reasons for allowance of the parent Patent application. With respect to claims 1-41, the key difference between the claimed invention and the closest prior art, i.e., McCubrey, is the fact that McCubrey does not rely upon parametric controls within an image processor for the

alteration of the image processor. It is for this reason and in combination with all of the other elements of the claims that not only original claims 1-37 were considered allowable, but also added claims 38-41.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
